

Daniel A. Kopytov

PROGRAM / PROJECT MANAGER

International Delivery | Digital Transformation | Operations, Infrastructure & Technology

Seattle, WA · 206-608-2267 · danielkopytov@gmail.com · [linkedin.com/in/danielkopytov/](https://www.linkedin.com/in/danielkopytov/)

Legal Status: Authorized to work in the United States

SUMMARY

Program and Project Manager with 10+ years of international experience leading complex cross-functional initiatives across operations, infrastructure, and digital transformation environments. Proven track record managing multi-stakeholder programs, improving delivery operations, and implementing systems, workflows, and tools that increase efficiency, strengthen coordination, and support business goals. Brings a strong blend of project execution, cross-functional leadership, and technology fluency to roles that require navigating ambiguity, aligning diverse teams, and turning operational challenges into scalable improvements.

CORE COMPETENCIES

Program Management | Project Delivery | Portfolio Coordination | Cross-Functional Leadership | Stakeholder Management
Budget & Schedule Management | Risk Mitigation | Change Management | Vendor Management | Process Improvement |
Workflow Optimization | Requirements Gathering | KPI Reporting | Executive Communication | Agile & Scrum
Continuous Improvement | Jira | MS Project | BIM | Workflow Automation | AWS Cloud Fundamentals.

PROFESSIONAL EXPERIENCE

2019 – 2025 | FRESENIUS VAMED | Project Manager – International Programs | Prague, CZ / Vienna, AT

- Managed international project portfolios valued at €350M+ across 6 countries, coordinating cross-functional teams of 15–25 across healthcare and infrastructure environments.
- Directed multi-stakeholder delivery while maintaining budget performance within 5% and schedule variance under 10%.
- Implemented delivery workflows across 10+ projects, improving consistency and reducing coordination conflicts by 30%.
- Built reporting and workflow systems that reduced manual effort by 50% and improved team efficiency by 15%.
- Partnered with technical and business stakeholders to define requirements, prioritize improvements, and roll out facility management, BIM, and AI-enabled workflow solutions and standards, driving 90%+ adoption across distributed teams.

2017 – 2019 | Karlínblok | Digital Project Manager | Prague, CZ

- Led digital transformation initiatives for commercial and residential projects, aligning stakeholders around new workflows, tools, and delivery practices.
- Delivered a cloud-based coordination platform for a 42,000 m² headquarters project, reducing coordination errors by 40%.
- Standardized workflows that cut RFIs by 25% and shortened approval cycles.
- Designed and launched VR-based engagement tools that increased stakeholder engagement by 60%.
- Reduced external production costs by 40% through process redesign and stronger internal capabilities.

2016 – 2017 | EBM Group | Architect / BIM Manager | Prague, CZ

- Managed digital delivery for a 98,000 m² residential masterplan, improving design coordination and approval workflows.
- Introduced QA automation workflows and trained 10+ junior engineers, improving team efficiency and consistency.

2015 – 2016 | CAD Consulting | BIM Consultant | Prague, CZ

- Delivered customized workflows and digital solutions for enterprise clients including Autodesk and Lidl.

ADDITIONAL U.S. EXPERIENCE

2025 – Present | MAGNUSSON KLEMENCIC ASSOCIATES | BIM Modeler – Design Technology Improvement | Seattle, WA

- Contribute to BIM- and AI-enabled workflow improvements in a U.S. engineering environment.
- Partner with technical stakeholders to identify workflow pain points and improve day-to-day delivery efficiency.
